How to Judge a Member's Voting Record

AFSCME selects a few roll-call votes from the hundreds cast by members of Congress every session. In choosing these votes, AFSCME attempts to fairly represent a lawmaker's position on issues determined to be important to AFSCME members — first and foremost as workers, but also as citizens and union brothers and sisters.

This voting scorecard is one of the key factors used in making judgments on AFSCME campaign support, endorsements, or contributions from PEOPLE — AFSCME's Political Action Committee or PAC. Other important factors often include the member's official leadership position, chairmanship or seniority on important committees, leadership in a state's congressional delegation, and accessibility and responsiveness to AFSCME's lobbying efforts.

Please visit AFSCME's website at www.afscme.org to obtain AFSCME Action Alerts, weekly reports, letters to congressional members, and votes. Questions concerning the selection of the votes or other aspects of a member's record are welcome.
